Overall: The SD DMH does not currently collect this information through our MIS. We are still working on development of the new MIS (through the DIG grant). The only data we have are those that are served through PATH, and in FY02 that number was 560. DMH, with assistance through the DIG grant, plans on implementing a new MIS system that will have the ability to collect homeless status data. We should have this new system in place and able to report by 2005.

The SD DMH does not currently collect this information through our MIS. We are still working on development of the new MIS (through the DIG grant). The only data we have are those that are served through PATH, and in FY02 that number was 560. DMH, with assistance through the DIG grant, plans on implementing a new MIS system that will have the ability to collect homeless status data. We should have this new system in place and able to report by 2005.

US totals are based on states reporting.

This table uses data from URS/DIG Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

The Division of Mental Health cannot report on these numbers, as our MIS system is very old. The new MIS system, through assistance with the DIG grant will be implemented by FY05
